SKILLS

Framework: Spring
- **Spring Boot**
- **Spring Security**
- **Microservices(Spring Cloud)**

Language
- **Java**

Database
- **SQL (PostgreSQL)**
- **NoSQL (MongoDb and Firebase)**

Other
- **Git**
- **Postman**

EDUCATION

-**SCHOOL OF COMPUTER TECHNICIAN**

2004-2007
-**UNIVERSITY OF COMPUTER SCIENCE**
2008 - 2013

-**ANGULAR BOOTCAMP - UDEMY**

2020

-**JAVA BOOTCAMP - UDEMY**

2022

-**SPRING SECURITY- TODOCODE ACADEMY**

2023

PROFILE

Started in computer science in Cuba, progressing from technical school to university. Gained foundational skills in HTML, CSS, C#, and SQL. After relocating to the US, I completed Angular and Java bootcamps, specializing in Java, Spring Framework (including Spring Boot and Security), and Microservices with Spring Cloud. Gained experience with PostgreSQL, MongoDB, and Firebase, while working on personal projects using Git and Postman.

EXPERIENCE

INTERNSHIP IN COLLEGE PROJECTS
2010 - 2013

- Websites, Desktop and Database develop and design using **C#** and **Oracle Database**.
- I worked on building logic for some platforms that scaled.

FREELANCER-"COMEDIOTECA WEBSITE"
2020 - Present

- Event management website specifically designed for the entertainment and comedy industry.
- Developing the backend in **Java** using **Spring Boot(Spring Framework)** to create endpoints to handle **CRUD** operations.
- I employed **JPA Repositories** to create entities and handle database interactions. The databases were organized using the **PostgreSQL** architecture, administrated through the **PgAdmin** tool. For testing, I utilized the **Postman** tool.
- I am implementing the frontend using **JavaScript**, **Angular**, **HTML**, **CSS**.

FREELANCER-"SOMOS+ WEBSITE"
2023 - Present

- Building the backend in **Java** with **Spring Boot(Spring Framework)**, developing **endpoints** to handle **CRUD operations**.
- Utilizing **JPA Repositories** for entity management and seamless communication with the **PostgreSQL** database, structured and managed through **PgAdmin**.
- Conducting comprehensive testing with **Postman**.
- Currently working on the frontend using **JavaScript**, **Angular**, **HTML**, and **CSS**.
- Implemented secure **login** and **registration** with **Spring Security**, consumed custom backend APIs, and integrated **Stripe's API** for smooth payment processing.

FREELANCER-"NAIL SALON MOBILE APPLICATION"
2023 - Present

- A sleek mobile app for a nail salon business, enabling users to book appointments, calculate service costs, and make payments through a modern, user-friendly interface. The application is built using **Angular**, **Ionic**, and **Spring Boot**, with **PostgreSQL** for database management and Square for payment processing.
- Implemented secure login and registration using **Spring Security**, consumed custom **backend endpoints** for service management, and integrated **Square's API** for seamless payment processing.
